DEATH RESULT OF HIS OWN CARELESSNESS.

That his death was due to his own carelessness was the result of the official investigation made in the case of George Turner, the sixteen-year-old boy who was killed by an L. & N. freight train at Porter Station, near Paris, last Thursday. The trainmen were absolved from all blame.

According to the crew in charge of the train, Conductor Dick Brown, engineer Ben Tulley and fireman Harvey Feeback, the boy, with several others, was standing near the platform, while an automobile stood close by, evidently the one in which they intended to come to Paris. As the train approached young Turner endeavored to board it. He was thrown under and killed. He told the crew that it was his own fault.

The funeral of the unfortunate boy was held at the Christian church in Cynthiana, Sunday afternoon at one o'clock, with services conducted by Revs. Geo. Ammerman and J. D. Amistead. The interment followed in Battle Grove Cemetery in Cynthiana.

FUNDS BEING RESTORED.

Paris and Bourbon county people who contributed to the fund being raised for the purpose of restoring the third meal to the veterans at the Confederate Home, are being notified that their subscriptions will be returned to them. The reason given is that the third meal has been found unnecessary, and that there has been no call from the Home for a third meal. The veterans themselves are discouraging the movement, and state they are very well pleased with the two-meal-a-day system.

ALL READY FOR THE TOBACCO OPENING.

"All ready! Let 'er go," will be the slogan heard at both the Bourbon Tobacco Warehouse and the New Independent Tobacco Warehouse in this city at nine o'clock this morning, when the auctioneers begin their singsong of the 1917 tobacco crop of Bourbon county, and even some crops from adjoining counties.

Both houses had a large force of men busily engaged for the past several days receiving and arranging the different crops that have been placed on their floors for the opening sales. Not only do the managers of both houses anticipate the biggest opening day's business in years to-day, but they will also be disappointed if the farmers and growers do not receive for their product the highest prices ever paid on the Paris market.

Tobacco began coming in to both houses on Friday and Saturday, and the houses and floors presented scenes of the greatest animation as the assistants helped unload and place the tobacco in position for the inspection of the buyers and the auctioneers. Local tobacco men look for the largest crowds at the opening sales to-day of any year since the industry developed into a market locally. Leaf department heads from different parts of the country will be in attendance, while a number of the buyers have been in the city for some days.

The warehousemen are very optimistic regarding the prospects for the Paris market, and say that the highest prices will prevail, despite the fact that the crop is only about eighty per cent. of last year's.

Some of the local tobacco men express the opinion that if any of the tobacco was inferior to that of last year it will be the late tobacco. They say that the consignments to be offered to-day are representative crops, and show up well. The color and the quality of the weed is unusually good.

All commissions on sales at The New Independent House at to-day's sales will be donated to the following good causes: One-half to "Our Boys In France Tobacco Fund," one-fourth to the Bourbon County Health & Welfare League and one-fourth to the American Red Cross, credit to be given to the Paris Chapter.

In addition to this they will sell free of commission all tobacco donated by the growers to the "Our Boys In France Tobacco Fund."

The Bourbon Tobacco Warehouse will donate their first day's commissions as follows: One-third to the Red Cross; one-third to the "Our Boys In France Tobacco Fund" and one-third to the Bourbon County Health & Welfare League.

As indicating the interest manifested in the tobacco industry, and to further the scientific culture of the weed in this county, a number of Bourbon county tobacco growers and brokers have decided to hold a tobacco show in Paris on Saturday, December 15, in the Doyle building on Main street. The exhibitors will be limited to the growers themselves and the entire Burley district will be invited to compete for the prizes, which will be liberal ones. The samples will revert to the promoters and will be sold on the Paris market.

The prizes will be divided first, second and third, and will comprise all grades with a sweepstakes prize to the grower having on exhibition the most complete lot of tobacco, quality and texture and color considered. The prizes will be announced later.

The Lexington tobacco market, one of the largest in the world, made a record yesterday at its opening sales, when averages of \$33 were made at the houses. The general range was wide, swinging from \$18 to \$19. Bidding was very brisk. The highest price of the day's sale was made, when one basket of a crop belonging to Woodford county growers brought \$50 per hundred. One of the biggest crowds ever seen at a Lexington opening attended the sales.

CHRISTMAS TURKEY MARKET TO START THURSDAY.

The turkey market for the Christmas trade will open at the C. S. Brent & Bro. pens in Paris and at their other houses on next Thursday and will continue until the 16th of the month. It is said the supply of birds is good. Prices may be lower for the Christmas trade, some commission men claiming the price will not exceed twenty-two cents a pound for this killing.

MISS SWEENEY DELIVERS AN INTERESTING LECTURE

AN VICTIM OF QUARREL DIES IN HOSPITAL.

A large and enthusiastic audience heard Miss Mary E. Sweeney, Lexington, one of Food Commissioner Hoover's very efficient aides, deliver an interesting and highly instructive lecture at the Y. M. C. A. gymnasium Friday afternoon on the subject of food conservation.

Miss Sweeney spoke here under the auspices of the City Federation of Clubs, and the Food Conservation Committee, being introduced in a speech by Mrs. Fanniebelle Sutherland.

Miss Sweeney brought not only a wealth of information, but a live message just from Mr. Hoover, and put into it a note of urgency not often heard.

"Victory for the Allies," she declared, "waits not only upon the morale of the French soldiers, but upon the morale of the French women and children. The men in the trenches cannot fight well and with courage, remembering that their wives and children, all hungering behind the lines."

She quoted Mr. Hoover as saying that "the pig would win the war." There is not sufficient time to raise up cattle and sheep, but pigs can be quickly raised, and pork must answer Europe's call for meat. Miss Sweeney discussed the limited ration of the French populace and the extraordinary courage of this people under the most trying circumstances.

Miss Sweeney's address was heard with the closest attention, as she is an unusually well informed and most convincing speaker.

HOUSE NUMBERING SYSTEM NOT YET COMPLETED.

Attention has been called to the fact that the house numbering system of Paris is not yet completed by the receipt of instructions by Postmaster Payne from the Postoffice Department at Washington, directing him to enforce the regulation requiring all mail to be addressed to street and number.

A number of property-owners in the city have not yet complied with the ordinance regarding the numbering of houses. This works a hardship on the postoffice officials as well as the carriers, and steps will be taken at once to compel the negligent parties to put numbers on their houses.

Weather predictions for the week beginning Sunday, issued by the Weather Bureau at Washington, were as follows:

For Ohio Valley and Tennessee—High temperature and scattered rains Tuesday; thereafter fair; colder until end of the week.

PLEASING ENTERTAINMENT

The concert and recital given at the court house last Thursday night by the Boys' Band and Girls' Orchestra from the I. O. O. F. Home at Lexington, was a musical treat from start to finish, and was thoroughly enjoyed by a large audience.

The program comprising instrumental and vocal selections by the band and orchestra and solos and recitals by members of the Girls' Orchestra, was well rendered and brought hearty applause. One of the special features of the evening was the impersonations by Fred Bassett, of Mt. Sterling, former newspaper man, whose talents as an entertainer are far above the average.

Willoughby and Harp, who were tenants on adjoining farms, attended an ice cream supper given near Centerville for the benefit of the Red Cross Chapter. They became involved in an argument over the possession of a chair. Friends interfered and separated them. After the supper the men met in the school house yard and the quarrel was renewed, resulting in Harp shooting Willoughby in the neck and through the shoulder. Willoughby was brought to the Massie Memorial Hospital, in Paris, and was later taken to the Georgetown Hospital.

The funeral was held at his former home on the farm of Mr. Edwin Ward, in Scott county, the interment following in the Georgetown cemetery.

Hart, after waiving examination was dismissed on pond. He failed to appear for trial and the bond was ordered forfeited by order of Judge Stout, in the Bourbon Circuit Court.

A vigorous search was made for him but to no avail, until Sunday, when he was placed under arrest by Deputy Sheriffs Ben Freekman and Wm White, of Fayette county, on his farm on the Greenwich pike near Hutchison, in this county. Hart made no resistance, and was taken by the officials to Lexington, and brought to Paris, Sunday night, where he was placed in the Paris jail.

DECEMBER COURT DAY.

There was a fair-sized crowd in the city yesterday, but little business being transacted in the stock markets. There was very little stock on the market. Farmers were discussing the tobacco markets and prospects. Many left early in the day to attend the opening sales on the Lexington market, so as to get a line on what would likely happen here. A few horses and mules changed ownership at good prices. There was a good attendance at the sale of cattle, sheep and hogs belonging to Mr. W. H. Whaley, held at the L. & N. shipping pens. Good prices were obtained for all classes of stock. Merchants report business and collections good and a quickening of trade, due to the approach of the tobacco season and Christmas.

Subjects of Ridicule.

Now that ladies are so generally employed as stenographers and typewriter operators the columns of newspapers are burdened with coarse attempts at humor in which the pretty amanuensis and her alleged flirtations with the business men are the inspiring theme. Perhaps these jokes, on account of their insipidity, are harmless and do not deserve the dignity of a remonstrance, but, nevertheless, we enter our protest against any attempt to place in a ridiculous or improper light the honest and worthy occupation of a woman.

All honor to the girl who has the energy, pluck and determination to qualify herself to be self-sustaining and make herself useful in the great world of business and brightening withering shame be his portion who would place the slightest straw in her way. There are enough actual follies, weaknesses and foibles of men to laugh about without making innocent women the subject of ridicule by making them figure in incidents entirely the products of such impure imagination.

The shifts of ridicule should be aimed only at those who deserve punishment and there are enough of this class, God knows; and wit and humor lose their charm when indulged in at the expense of anything that is good and useful. A woman's reputation is too delicate to be roughly handled and any light treatment of her occupation injures her who is identified with it.

Keep Paris Alive!

Paris is very much like an individual. To be flourishing, it must have energy and enterprise. The people in Paris should remember that the individual prosperity depends to a large extent upon the character of the place in which their business is located.

Every public measure should be liberally supported by all, especially the business men. At the present day there is as much competition between towns as there is among persons and business enterprises. A man seeking a location will invariably select a town that is up to the times, and is eagerly in favor of every modern improvement.

Paris in these modern times can't afford to be peopled with old fogies or antediluvian fossils who are continually kicking at every enterprise. To make Paris a flourishing town you must believe in its future and work for it, encouraging every improvement. Make a special effort to exhibit some evidence of improvement in your own work and character. Help every worthy man, every enterprise, and encourage every good man to locate in Paris.

Meatless and Wheatless

For those who will say there is no good in wheatless, meatless and sugarless days in a week the figures given out by one who really thinks are of interest.

It has been estimated that there are about twenty-million families in this country averaging five persons to the family and in the average Kentucky family 1 1/2 pounds of meat are consumed a day or thirty million pounds of meat saved in a meatless day. It takes a good steer to dress out 500 pounds and the 30,000,000 pounds of meat would mean the equivalent of sixty thousand steers by one meatless day.

The average consumption of flour to the family is 2 pounds a day or 40,000,000 pounds for the nation. Two hundred thousand barrels of flour could be filled by this amount and more than a million bushels of wheat would be saved.

Sugar is used in the American home at not less than a pound a day. Twenty million pounds for the nation or 10,000 tons equal to 50 car loads is saved by a nation-wide sugarless day.

The total result is astounding and convincing and consideration leaves nothing to be done but conserving.

New Postoffice Rules.

Postmaster Payne formulates the following rules for the benefit of his patrons and that you may know what you may expect: No letters given out until they have been received. If you don't get a letter or a paper on the day you expect it have the postmaster look through all the boxes and down the cellar also. It ought to be there somewhere and he likes to hunt for it just to please you. If your friend don't write rave at the postmaster. He is to blame. If he tells you no, put on a grieved look and say there ought to be some.

He is probably hiding your mail for the pleasure of having you call for it. Ask him to look again. If you are buying stamps make him lick them and put them on, that's his business.

Don't Do It!

Don't send them a package of tobacco, it's a bad habit; don't send them reading matter, it will injure their eyes; don't knit them a sweater, it might scratch their delicate skin; don't write them a letter, you'll waste the paper and a three-cent stamp; don't send them anything to eat, they might get the stomach ache; don't tell them you admire their spirit, it might make them vain; above all, don't send them any tobacco. Not more than 99 out of every 100 use tobacco, and they don't amount to much. Save your money and buy another farm. Little acts of kindness never helped anybody anyway.

BOURBON MEN PURCHASE THOROUGHBREDS AT SALE

At the sale of thoroughbreds held at Tattersalls, at Lexington, Wednesday, by the Kentucky Sales Company, 116 head brought a total of \$19,360, an average of \$166 per head. The highest price of the sale was realized when Mr. Harry Montgomery, of Georgetown, paid \$4,000 for the brood mare, Martha Palmer, of the Latonia Derby winner, Liberty Loan, and consigned to the sale by Mr. R. H. Anderson, also of Georgetown. The second best price was realized when Mr. Charlton Clay, of Paris, paid \$1,550 for the good race mare, Bachelor Girl.

The following purchases were made by Bourbon county men: Bachelor Girl, b m (8) by Broomstick—Wayward Lass, Charlton Clay, Paris, \$1,550; chestnut colt, weanling, by Ivan the Terrible—Arline, Galleher Bros., \$325; Yodler, b m by Meddler—Yodel, J. FORMER BOURBON BOY COMMISSIONED IN ARMY.

Mrs. John L. Bosley, of Winchester, formerly of Paris, received a message from her son, Mr. Webb Bratton, a former resident of the Stony Point vicinity, stating that he had been commissioned as First Lieutenant in the U. S. Army service in the Officers' Reserve Corps at Camp Sheridan, Ill. Lieut. Bratton was ordered to report to Camp Zachary Taylor, near Louisville, where he has been assigned to duty with the 46th Infantry. Lieut. Bratton is a brother of Mr. Henry Bratton, of rear Stony Point.

PAYING FOR LIBERTY BONDS.

On November 15, which was the date on which the first installment on Liberty Loan Bonds was due, approximately \$2,400,000,000 was paid in, although less than a third of that amount was due.

In other words, nearly two-thirds of the aggregate subscriptions to the Second Liberty Loan have been paid in full, the purchasers not availing themselves of the right to wait until December 15 and January 15 to make their other payments.

MUSICAL BEGINNINGS

Mrs. Boyton caught a glimpse of her young son going to the library one afternoon concealing something behind him. Under investigation, she discovered he had a new porous plaster which he had found in the medicine closet.

"what in the world are you going to do with that plaster?"

The testimony in rebuttal was finished Friday, when arguments were made by Attorneys R. C. Talbott, for the contestants, and Denis Dundon for the propounders. Two members of the jury, Joseph Ewalt and W. L. Cantrell, refused to sign the verdict.

On Saturday, Judge Stout convened court for the purpose of passing sentence upon a number of prisoners who were convicted at this term of the court, and the session closed. Judge Stout convened the December term of Franklin Circuit Court at Frankfort yesterday for a three-weeks' session.

The following four prisoners were sentenced: George C. Morgan, sentence, four years in the Frankfort Reformatory; James Vice, forgery, one year; Jack Webster, (colored) shooting at without wounding, one year; Bob Allen, (colored) obtaining property under false pretenses, one year. The convicted men will be taken to Frankfort to-day by Deputy Sheriffs. OLDER BOYS' CONFERENCE TO BE HELD IN RICHMOND.

The Sixth Annual Conference of Older Boys will convene in Richmond, Friday, December 7, for a three-day session. The object of the conference is to elevate the youth of the State, creating, maintaining and extending to all Kentucky boys high standards of Christian character, and to discuss points of strength and weakness.

Special speakers, in addition to the local workers, who will be on the program are Arthur N. Cotton, National High School Secretary, New York City; Lawrence K. Hill, Secretary for the work among rural boys, International Y. M. C. A., New York City; L. W. Barclay, Director of Department of Education, Boy Scouts of America, New York City; the Rev. Homer W. Carpenter, Chancellor, Transylvania College, Lexington; H. V. McChesney, State Educational Secretary, Camp Zachary Taylor, Louisville; and Dr. W. A. Ganfield, President of Centre College, Danville. Special features of the session will include a visit to Eastern State Normal, and a conference banquet Friday evening at the First Christian church. Boys will preside and read important papers during the meeting.

HE'S NO SLACKER!

Kenneth D. Alexander, millionaire land owner, turfman and farmer, of Versailles, is doing his bit for the Allies. Mr. Alexander, in a letter to a Paris friend, stated that he was getting ready to leave as driver of one of a chain of motor ambulances en route to the Italian frontier. He stated that he was feeling fine and enjoying his work. He predicted the war "if everything goes well" should be over in the next three years.

AN OLD MAN'S STOMACH.

As we grow older and less active, less and less food is required to meet the demands of our bodies. If too much is habitually taken, the stomach will rebel. When a man reaches the advanced age of 85 or 90, you will find that he is a light eater. Be as careful as you will, however, you will occasionally eat more than you should and will feel the need of Chamberlain's Tablets to correct the disorder. These tablets do not contain pepsin, but strengthen the stomach and enable it to perform its functions naturally. They also cause a gentle movement of the bowels.

CONGRESS TO BE ASKED FOR MORE MILLIONS.

Congress will have to authorize early in the session, which convened yesterday, means of collecting from the American people between now and July 1, about \$5,000,000,000 in addition to the \$3,666,000,000 from Liberty bonds already authorized, but yet to be issued, the \$1,000,000 or less expected from war savings campaigns and about \$3,000,000 from war taxes.

Most Congressional leaders believe the \$5,000,000,000 balance must be provided principally by issuance of bonds, and Secretary McAdoo has told members of Congress that he heartily favors this method.

Chairman Kitchen, of the House Ways and Means Committee, on his return to Washington, will take up the question immediately and the committee within a week or two is expected to frame a new bond measure, if this plan is finally adopted, the country probably will be called upon to absorb two more big Liberty bond issues between February 1 and July 1, aggregating more than \$8,500,000,000.

VERSAILLES COUNCIL RAISES CITY WATER RATES.

At a recent meeting of the Versailles City Council, City Attorney Harry Schoberth was instructed to draw an ordinance to become effective January 1, 1918, raising water rates fifty per cent. The water plant has been operated at a loss for some time, due to a greatly increased cost of operation.

Supt. Newton Mitchell, of the Paris Water Company, tells THE NEWS that the new rates proposed to be put in force in Versailles are just double those offered by his company to Paris had the proposed new contract been accepted.

This rate would have been \$13.50 per month, while Versailles pays \$18,000 per month.

The readers of this paper will be pleased to learn that there is at least one dread disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts through the blood on the Mucous Surfaces of the System, thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

OUR SAVINGS AND OUR ARMY.

"Our gallant men in the field will do the fighting with true American valor, but the responsibility rests upon you and me and every other citizen of the United States who is not in active field service to provide them with the equipment and machines to enable them to fight successfully.

"Valor alone is not going to destroy the Kaiser and military despotism. We must have organization back of it. Every man in this country must be a patriot. * * *

"The value of the war-savings plan consists not alone in the amount of money which the people of the United States may lend to their Government upon the certificates which are sold, but also in the lesson which will be taught, in the habits of thrift that will be inculcated as a result of it. What this will mean in conserving the resources of America is inestimable. What this will mean in the future economy of America is incalculable.

"Victory can only be won by the valor of our soldiers, combined with the intelligent use of our resources. Savings and economy enlarge the available resources of the country for war, and the industry of the people is necessary to put these resources in the form which will enable our soldiers to use them with victorious effect upon the battle fronts."—From speech of Secretary McAdoo.

LEGAL AND MEDICAL DRAFT BOARDS APPROVED.

Governor Stanley's recommendations for members of the Legal and Medical Advisory Boards for the selective draft have been approved. The Medical Advisory Boards are appointed by districts, having regard to hospital facilities. They are to be at the service of the local boards for the re-examinations of registrants, either on their own motion, or that of the Board or the agent of the Government.

The Medical Advisory Board for the Sixteenth District, of the counties of Bourbon, Harrison, Scott, Nicholas, Jessamine and Fayette, is composed of Drs. A. H. Barkley, G. P. Sprague and F. H. Clarke, and will meet at Lexington.

The Local Advisory Board is appointed by counties. The members of the Board, which will act in conjunction with the local Exemption Board, from this county are County Attorney George Batterton, Attorney David D. Cline and Hon. E. M. Dickson. This board will help the Exemption Board of the county with legal advice, and will be present at each meeting of the Board.

The United States has taken over Teutonic patents. It has no desire, however, to interfere with Germany's right to her peculiar style of kultur.

FIRST NUMBER OF THE RED-PATH LYCEUM COURSE.

The first entertainment in the Redpath Lyceum Course will be given Friday evening at 8 o'clock in the City School Auditorium. The first number will be by Mr. Ralph Bingham, one of America's greatest fun-makers. Mr. Bingham's first appearance as a Lyceum entertainer was thirty-five years ago, when he was just six years old, and traveled as the "Boy Orator of America." Mr. Bingham is an impersonator, a humorist, a violinist, a pianist and a vocalist, and has filled more return dates in more towns than any other humorist. He is also Life President of the International Stunt Club and has missed but two engagements in twenty years. He is also a member of the Lamb's Club, in New York, and has played in their famous "Gambols."

There will be five entertainments in this course, the next one being December 18, by Miss Buckley, reader.

January 14, Harmony Glee Club, Feb. 1. The Musical Guardsman, Feb. 18, Laurant & Co. Magicians, Illusionists and Entertainers. This is in all probability the highest class Lyceum Course ever given in Paris and should receive the support of every liberal-minded and progressive citizen, as the price is very low and the benefits to be derived by attending large. Having this course in Paris was made possible by the public spiritedness of about twenty gentlemen who guarantee the expenses and who can in no way derive any financial benefit. If there is any money left from the sale of season tickets it will be donated to some worthy cause. The price of a season ticket is \$2 for adults, and for any school child, \$1. They may be had at either Brooks & Snappy or the Ardery Drug stores. Let us all help out.

THIS IS CERTAIN
The Proof That Paris Readers Cannot Deny.

What could furnish stronger evidence of the efficiency of any remedy than the test of time? Thousands of people testify that Doan's Kidney Pills have brought lasting results.

Home endorsement should prove undoubtedly the merit of this remedy. Years ago your friends and neighbors testified to the relief they had derived from the use of Doan's Kidney Pills. They now confirm their testimonials. They say time has completed the test.

Geo. McCandles, Second Street, Paris, says: "My kidneys were inactive and I had backaches. Doan's Kidney Pills put a stop to all the trouble. They gave me complete relief." (Statement given January 17, 1912.)

NO TROUBLE SINCE.

Over four years later, or on November 9, 1916, Mr. McCandles added: "I have not had any need of a kidney remedy since I last endorsed Doan's Kidney Pills. I consider myself permanently cured."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. McCandles has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y. (adv)

FORMER PARISIAN IN FLORIDA NEWSPAPER GAME

THE NEWS has received several copies of The East Coast News, an eight-page weekly paper published at Daytona Beach, Florida. At the head of the editorial page appears the name of Mrs. James L. Wilcox, as editor, and James L. Wilcox, as business manager.

Mr. and Mrs. Wilcox are both former residents of Paris, and have been making their home at Daytona for several years. The East Coast News is a most creditable publication, neatly gotten up, well-printed and having a good run of advertising in its eight pages, and its local and editorial columns showing the work of an experienced staff.

OPPORTUNITIES FOR EDUCATION AT WASHINGTON.

To the young man or woman who seeks to obtain a college degree and a livelihood at the same time, no city in the country offers an opportunity more attractive than that to be found in the National Capital. The several universities at Washington provide evening classes with hours arranged conveniently for Government employees, who ordinarily complete their day's work at half-past four and all libraries, including the Library of Congress, are open at night.

For years thousands of young people have entered the civil service at Washington with the main idea of devoting three of four years to equipping themselves for a professional or scientific career while supporting themselves. Many of the young men live at fraternity houses co-operatively conducted, thereby lessening the living expense and also securing a place where they can entertain their friends.

In addition to the university courses, the Young Men's Christian Association and private schools conduct evening classes in mechanics, languages, accountancy, stenography and typewriting, and the usual high school studies.

Notwithstanding the drafts for military service, practically all the schools in Washington show an increased enrollment this year. This is due to the great influx incident to the war. Ten or twelve thousand new clerks and other employees have been appointed in the departments and this great civilian army is being added to daily. Stenographers and typewriters and mechanical draftsmen for the service generally, and what are known as schedule clerks, index and catalogue clerks, clerks qualified in statistics or accounting, and clerks unqualified in business administration for the office of the Ordnance Department of the Army are in demand.

The representatives of the Federal Civil Service Commission at the postoffice in all cities are receiving numerous inquiries from persons who wish to be at the seat of government at this time of big events and to have a part in the actual administration of the Government's great business. Women are finding in this office work an opportunity to "do their bit" in a very practical way.

OUR LOANS TO OTHER NATIONS

The United States has loaned to other nations engaged in war with Germany something over three billion dollars, taking for the sums advanced the obligations of such nations, bearing the same interest and maturing at the same time as the Liberty Loan Bonds.

The wisdom of this policy is beyond question. By strengthening these nations and making them as powerful and as effective as possible we are greatly aiding in the shortening of the struggle; we are doing much to insure an ultimate victory; we are doing only that which it is our duty to do toward our allies in this tremendous war against an autocracy which would debase and enslave all nations and men.

The fact that we did not advance this money much of the work which the allies are doing would have to be done with American money and American men establishes clearly the intelligence and wisdom of our policy.

There is work to be done which requires the expenditure of blood and treasure. In making these money advances to Great Britain, France, Italy, and other nations we are lending money, which will be returned to us, instead of expending sums possibly as great, possibly greater, with no hope of return. In addition, we are saving the lives of American soldiers.

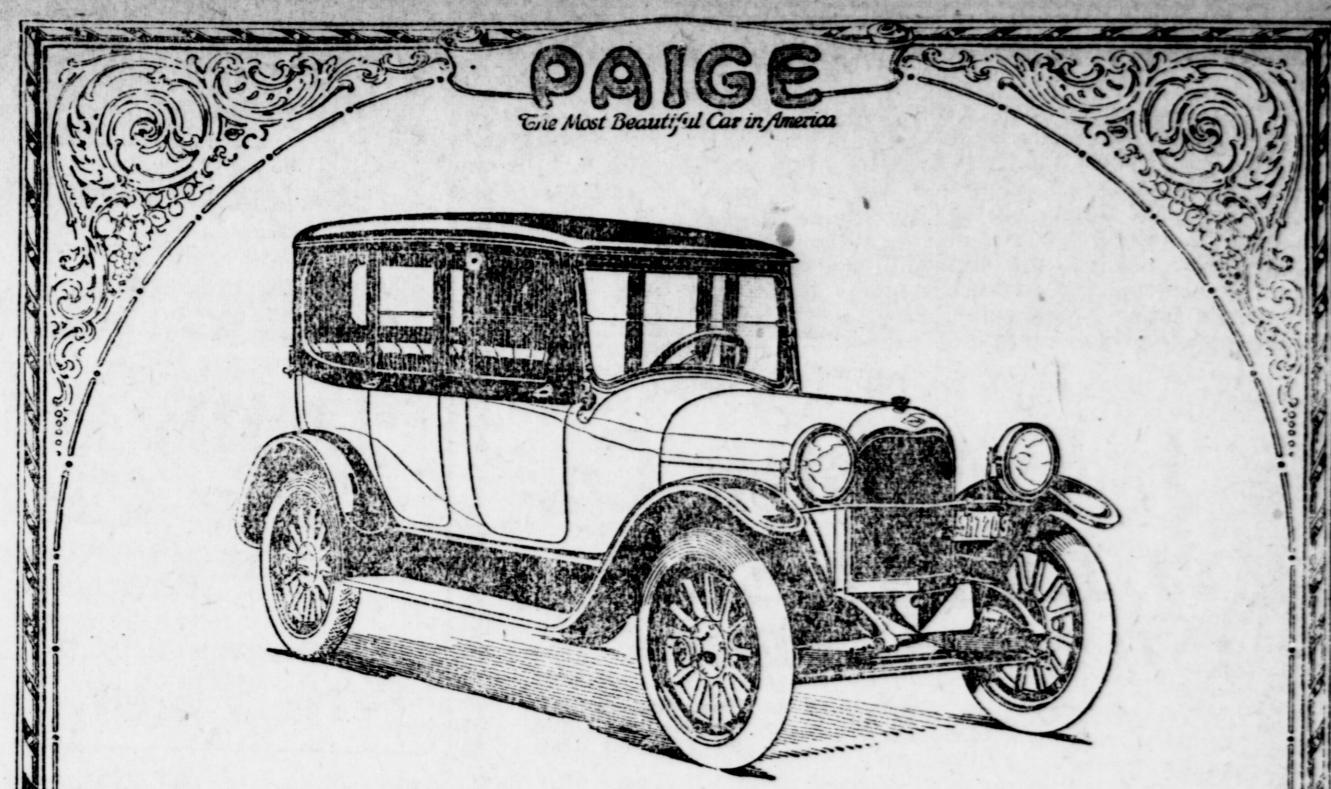

No policy the American Government has pursued is wiser or more truly economical and patriotic.

Wouldn't it be laughable if all that talk about Russia taking a rest proves a ruse and Kerensky should break through the German line and start for Berlin some night?

Life of Air Leaks Away.

Air seems to spoil easily. Air traveling through shafts and special air chambers—in fact, air going through anything that cuts it off from the ocean of atmosphere—loses some of its indescribable vitalizing qualities and is liable to cause weariness and a feeling of depression to those who habitually breathe in artificially ventilated houses. Scientific examination may show such air absolutely pure, but all the same it is poor stuff to take into the lungs. This also explains the real rock bottom difference between town and country air. Highly artificial food and highly artificial air, no matter how good they seem, are not the real stuff themselves.—New York Press.

An Easy Way to Run Ribbons.

When about to send a piece of lingerie to the laundry a piece of narrow tape should be tied to the end of the ribbon and the latter drawn out of the heading, leaving the tape in its place. The knot is then fastened, and the lingerie can be sent to the wash, the ribbon being replaced on its return in exactly the same manner.—Philadelphia North American.

BIG MINING PLANT DESTROYED BY FIRE.

Fire believed to be of an incendiary origin, almost totally destroyed the plant of the Southern Coal Company, near Whitesburg, Ky. The head house and conveyor of the plant were an almost total loss. No estimate of the damage can yet be made.

Dynamite was used to sever the conveyor, thus saving the town of Seco, at which the plant is located, from destruction. The blaze will necessitate the closing of the mine at that place for several weeks. Guards have been placed around the corporation's plant at Laviers.
